Rider Education:

Don't drive if you don't have to. If you must be extremely careful. Note on black ice chains will help in starting and stopping as long as you are at very low speeds. Carry sand, kitty litter, oil absorbent etc. to help for traction when you are stopped and your tires are spinning.

Ride Reports:

Keep checking the bulletin board for ride opportunities.

If you have something for the weekly news letter, send it to me by Monday of each week.
